A Call for a Meeting of The People's Party at Hardinsburg.

UNION STAR KY., June 15th 1891, Mr. Editor. You will please publish a meeting that will be held July 11th 1891, at Hardinsburg. Which is my duty to do, every voter in Breckenridge county is respectfully invited to attend. There being a great deal of business to attend to. The Secretary of the County Union will please notify the Lodges that they are all consolidated as one. Mr. William Hawkins and Riley Dowell are appointed as committeemen on that day. All other papers in the 4th congressional district will please copy.

JOHN T. WHEELER, Committeeman of the 4th Congressional District of Kentucky.

A Duty to Yourself.
It is surprising that people will use a common ordinary pill when they can secure a valuable English one for the same money. Dr. Acker's English pills are a positive cure for sick-headache and all liver troubles. They are small, sweet, easily taken, and do not gripe. Sold by G. W. Short, Cloverport, Ky., and Witt & Meador, Hardinsburg, Ky.

Methodist Paper in Louisville.
THE KENTUCKY METHODIST is the name of the paper recently removed from Lexington, Ky., to Louisville. It is an eight page paper, with five broad columns, in good type, and with excellent print, and is published at the low price of \$1.00 per year. Address, Tux Kentucky Methodist, Louisville, Ky., for a sample copy. An agent is wanted for this county, to whom a liberal commission will be paid.

As almost every denomination, except the Methodists, have a strong paper in the state metropolis, it would seem that the Methodists would also want one. If so, they should give this paper a hearty support, as it is, or will be, the best they can ever hope to have.

Will Interest the Women.
A writer in a recent issue of the Ladies' Home Journal has the following, which will without doubt interest all of the wedded of the fair sex, who will say "amen" to it good and loud:

Many a husband, perfect in almost every other quality, lacks one thing: the virtue of consideration for the woman of his home. How often have I heard men say to their wives "You have nothing to do all day. You attend to that." Now, women are far busier in their homes than many a man imagines or perhaps knows. To conduct a well-regulated house requires as much time and as much skill as to conduct a well-regulated business. For a woman to get good service out of the help in the home is just as great an art as it is for the man to draw forth the best in his clerks. Just as many knotty questions come up in the home for decision as come up in the office. A table is often as great a battlefield as the desk. We men are great factors in the world's progress and history, but we do not constitute the entire creation. All the burdens of this earth were not put on our shoulders. God put a few on the shoulders of women, too. Whenever you think, my dear sir, that you are carrying all the worries and troubles of this world, just stay home a day and watch the domestic machinery at work. It will be quite a revelation to you. You will find that your wife has not half so much time to herself as you supposed, and the next time when you think she has more time to do a thing which properly falls to you, you will be better able to judge whether she is capable of doing it in addition to her other duties.

Is Life Worth Living?
Not if you go through the world a dyspeptic. Dr. Acker's Dyspepsia Tablets are a positive cure for the worst forms of Dyspepsia, Indigestion, Flatulency and Constipation. Guaranteed and sold by G. W. Short, Cloverport, Ky., and Witt & Meador, Hardinsburg, Ky.

Connecticut's Share of Barnum's Estate.
Under the collateral inheritance law of Connecticut, 5 per cent. of all the personal estate over \$1,000 goes into the Treasury of the State. The personal estate of the late P. T. Barnum inventories \$1,285,509, and 5 per cent. of that sum less the \$1,000 limit amounts to \$64,229.95, which the State will get as its share of the sum total.

The extensive property holdings of the late Mr. Barnum at Denver, Col., were deced by him to Mrs. Buchtel, his daughter, previous to his death. Their value is fully \$2,000,000. The fee of Judge Beardsley for merely receiving the inventory is \$743.91.

Good Things in the New Constitution

Under the above caption the Farmers' and Laborers' Journal gives the reasons printed below in small type why the Constitution should be adopted. As they are misleading we make a few comments thereon.

"It reduces the grand jury four members and saves \$7,200 per annum."
(It makes twelve men constitute a grand jury, but requires three courts instead of two each year, thus making four additional jurors to pay. Increase cost to State \$17,000.)

"It taxes banks and other corporations for county and city purposes, and increases the revenue 150,000 per annum."
(An error. It reduces the State tax on banks from 75 cents to 45 cents—a loss to the State of about \$100,000 a year, according to Auditor's report for 1888.)

"It prevents counties and cities from being taxed to build railroads."
(A feature the counties having no railroads seriously object to.)

"It keeps the convicts within the walls."
(No it does not. Read section 262.)
(It makes all charters revocable.)
(No does our General Statutes.)
(It is for the people as against organized capital.)

(Is it? The best informed authority says it will bring less than \$3,000,000 of corporate property now exempt under taxation, while it will place \$87,500,000 of property, now exempt, under taxation made up of the furniture, agricultural implements, sewing machines, milk cows, chickens, domestic manufacturers of the people.)

"It added \$500,000 to the common school fund."
(Misleading. The above amount is due from the Government, and was simply ordered credited to the school fund. The Legislature can do the same.)

"It limits the amount of taxes the counties and cities shall pay."
(And will retard the growth for years—especially disastrous to the mountains.)

"It provides for a uniform system of courts."
(Yes, an increase of four courts in the State consequently four additional judges and four Commonwealth Attorneys.—Estill Eagle.)

Heed The Warning.

It is not infrequently the case that itching pimples and irritating "cat boils" are the forerunners of large boils, or the more serious carbuncles. Invariably Nature puts out her danger signals, and they should be heeded at once. The pimples and little boils show that the blood is not in a good condition and a few doses to relieve the system. A few drops of Swift's Specific at this juncture will accomplish wonders. The eruption will be healed and the system cleansed of its impurities. The modern paraphrase of the old saying, "A stitch in time," etc. is that "Timely stitches will save nine pairs of breeches." The modern form has a touch of humor that does not modify the truth of it. In that vein, we may say that a course of Swift's Specific prevents ill's terrific.

We Can And Do
Guaranteed Dr. Acker's Blood Elixir, for it has been fully demonstrated to the people of this country that it is superior to all other preparations for blood diseases. It is a positive cure for syphilitic poisoning, Ulcers, Eruptions and Pimples. It purifies the whole system and thoroughly builds up the constitution. For Sale by G. W. Short, Cloverport, Ky., and Witt & Meador, Hardinsburg, Ky.

A tree can branch out in every direction and prosper, but the average business man can't.

A Success.

Royal Germetner is established as a remarkable success. Thousands of testimonials attest its virtue. Many of these are given by men and women of the highest standing in the most honored walks of life.

In the midst of a flourishing and rapidly increasing business, the price is reduced from \$1.50 to \$1 per bottle. This is done in the interest of those whose circumstances in life deter them from paying the higher price. The rich will buy it at any price, but the managers feel that a medicine which possesses such wonderful powers should be placed within the reach of the poor. Many have said that Germetner was the cheapest medicine on the market. When it is remembered that a bottle of Germetner makes a gallon of medicine ready for use, it is certainly cheaper than ordinary medicine in a bulk, and when the powers of the medicine are taken into account, the price amounts to almost nothing.

Germetner is the coming success that has already come. Ask your druggist for it, and if he cannot supply you write to E. M. Coleman, General Representative, Louisville Ky. Send for book containing particulars and history of wonderful cures.

A REPORT is being circulated in some of the districts in the county that the party was dissatisfied with Mr. Severs as their candidate for Representative and that he would probably be withdrawn from the race long before the day of the election. There is not the slightest foundation for such a report and the friends of Harned should put a stop to it. One of Mr. Harned's main leaders in this canvass is circulating this among a class of people in some of the districts, where it is likely to do Mr. Severs an injury. At the same time the party who is circulating the report knows that there is not the slightest foundation for it. Upon the other hand it is universally conceded that Mr. Severs was acceptable to every member of his party in this race and could make as strong a fight for the place as any man in it. He is gaining favor every day, not only in his own party—but out of it, and when the election comes off we confidently believe he will win the race by five hundred votes. Mr. Harned's friends should pull fair or get out of the race.

Our Old Fire Company.
"That was a gay old company that we belonged to, Joe, away back in '68, when you and I ran with the machine. Do you remember that big fire in Hotel Row, one freezing night, when fifteen people were pulled out of their burning rooms and came down the ladder in their night-dresses; and how 'Dick' Greene brought down two 'kids' at once—one in his arms, the other slung to his back? Poor 'Dick'! He got the catarrh dreadfully, from so much exposure, and suffered from it five years or more. We thought once he was going in consumption, sure. But, finally, he heard of Dr. Sage's Catarrh Remedy, and tried it, and it cured him up as sound as a flint. I tell you, Joe, that catarrh remedy is a great thing. It saved as good a man and as brave a fireman as ever trod shoe leather."

Laughter is ticklish business of course, but it is contagious. We laugh at a good laugh as well as a clever joke.

Fair Discussion.

The Courier-Journal discussing the attacks made upon that journal because it has seen fit to oppose the adoption of the new Constitution says:

In no case shall the Courier-Journal stand upon quibbles. We mean no factions opposition. We disdain sophistries. If the new Constitution be a good thing, let us have it. But if it embodies anything doubtful, or dangerous, let us ascertain the truth, and as the Convention is by its own act to meet again in September—let us recommend it to the immediate offspring of its seven months of labor, with instructions to amend. Better spend seven times seven months in getting it right than hastily adopt an instrument which will involve us in years of uncertainty and litigation, in the meantime suspending much of our material development and progress.

Personalities have nothing to do with such a situation as this. Because a man has stock in a bank, he is not barred from credibility as a witness. Because he has stock in a railway, he is not disfranchised. Because he is interested in a Land and Improvement Company, he does not forfeit his right to think and to be heard. All these interests belong to the general sum-total of the body politic, and are a very important part of it. We must have banks. We can not afford to tear up the railroads. Land and Improvement Companies are primarily organized to develop the country, and, where managed, with integrity, wisdom and activity, are good institutions. It is pure agrarianism to say that these organizations are hostile to the public interest and deserving only of destruction. It is sheer madness to deny them a fair hearing. They are not outlaws. They are not aliens. They are Kentuckians, and held well in hand by just laws, they should have their say and be allowed their quantum in the general discussion.
